

5 Feb 2010 – New website!

We are excited to say goodbye to our old website, and HELLO to our new site! We had fun creating it, all the time keeping you, our customer, in mind, trying to add all the features that we think you will appreciate.

Some of the newly added features are listed on the Resources menu, have a look. The all new Photo Gallery and Video selection deserves a closer look too.

We've been quite busy in the past few months, creating a bunch of new toys. On the whitewater page, the new boats are the Detox (production pics will be uploaded soon), the Donsa and some composite boats. On the recreational page, the new boats are the Locomotion and soon to be launched Bamba. We also released our own recreational paddle recently, which can be seen under the Accessories menu.

Apart from some major additions, all pages were also updated with the latest information. Have fun browsing around on our new site.

Cheers
Celliers
